SUMMARY

Dedicated and highly motivated individual with a strong drive for computer-centric work and daily problem-solving. Actively seeking a positive, supportive working environment where enthusiasm and a strong work ethic contribute to overall success.

EXPERIENCE

Web Designer and Developer

January, 2026 – May, 2026

Fixdot Technologies. Near JC Bose University, Faridabad

Engineered and deployed responsive web interfaces with a primary focus on custom WordPress development and frontend architecture. Translated design mockups into scalable, interactive frontend code. Optimized cross-platform performance and UI/ UX functionality, delivering pixel-perfect digital experiences using frontend-exclusive codebases without backend dependencies.

EDUCATION

Matriculation General Studies

March, 2022 – April, 2023

B.M Model Sr. Sec. School 86%

Completed Matriculation from B.M Model Sr. Sec. School with core subjects including Social Science, Science, Mathematics, English, Hindi, and Physical Education. Developed a strong foundation in academic concepts, analytical thinking, and basic communication skills. Gained disciplined study habits and balanced learning across theoretical and practical subjects.

Diploma Computer Engineering

August, 2023 – July, 2026

Shri Vishwakarma Skill University 7.91 CGPA

Completed a comprehensive diploma in Computer Science covering the core fundamentals of computing, including Operating Systems, DBMS, C, Python, Java, and introductory Data Structures. Gained working knowledge of web development and app development enhanced with Generative AI tools, along with foundational exposure to lot concepts. Developed an average-level command over multiple programming languages while achieving stronger, in-depth practical skills in modern web and app development using AI-driven workflows. Also learned essential productivity tools such as MS Excel, Word, and PowerPoint, enabling effective documentation and reporting.
